

ROYAL PURPLE[®]

SYNTHETIC OIL

Max ATF[®]

Synthetic Automatic Transmission Fluid

Beyond Synthetic[™]

Max ATF[®] is a synthetic, high performance, long life, multipurpose, automatic transmission fluid. Max ATF[®] is recommended for all automatic transmissions requiring Ford Mercon[®] or GM Dexron[®] III transmission fluids. Max ATF[®] is more oxidation stable than other transmission fluids and greatly resists breakdown from heat and loss of proper lubricity. Max ATF[®] is fully compatible and can be mixed with other automatic transmission fluids; however, for the best results drain or flush current oil and then fill with Max ATF[®].

Exclusive Performance Advantages:

- Provides Greater Wear Protection
- Increases Fluid Life
- Promotes Clean, Efficient Equipment
- Extends Equipment Life
- Increases Oil Life
- Provides Outstanding Rust / Corrosion Protection
- Promotes Smoother Shifting
- Reduces Temperatures
