

# ROYAL PURPLE<sup>®</sup>

## SYNTHETIC OIL

### Max-Tuff<sup>™</sup> Assembly Lube

#### Beyond Synthetic<sup>™</sup>

Max-Tuff<sup>™</sup> is an ultra-tough, synthetic lubricant designed for use in reassembling repaired equipment. Max-Tuff<sup>™</sup> utilizes unique, synthetic molecules that adhere tenaciously to metal surfaces to create a formidable, load-bearing physical barrier between surfaces. This minimizes the possibility of boundary conditions (metal-to-metal contact) while providing excellent protection to both ferrous and non-ferrous metals against rust and corrosion.

#### Exclusive Performance Advantages:

- Greater Wear Protection on Startup
- Clean, Efficient Equipment
- Extends Equipment Life
- Compatible with Conventional Mineral and Synthetic Oils
- Non-Foaming
- Outstanding Rust / Corrosion Protection
- High Temperature Service Capability

#### Typical Properties\*

Viscosity	
cSt @ 40°C	683.0
cSt @ 100°C	33.8
SSU @ 100°F	3727.0
SSU @ 210°F	166.0
Viscosity Index	77
Flash °F	335

\*All properties are typical and may vary.
